

Love Is Stronger Than Fear: Welcoming the Stranger

As believers, we have the responsibility to welcome the stranger in a gesture of love inspired by faith. We are called to respect diversity and to gracefully encounter those who are different from us in a spirit of mutual enrichment. When we do this, the barriers created by misinformation and fears no longer control us.

Join us and learn about the real experience of migrants, asylum seekers and refugees living in our community and about how to face and overcome the fears that keep us from welcoming and empowering our new neighbours.

Together, we will create a new and hopeful future for all.
