Margins at the centre: Navigating a just transition in the Wild Wild Waste

GUEST SPEAKER: **BREX AREVALO**

To kick off *Québec Waste Reduction Week*, come and find out how people who live in marginalized communities in the Philippines are offering real solutions to environmental pollution caused by the burning of waste materials in metropolitan cities. Brex Arevalo will highlight how these communities can offer ecologically just (and uncomplicated!) alternatives to the industrial incineration practices in metropolis cities. Only with the margins at the centre can we get out of the Wild Wild Waste!

Brex is an environmental planner, climate justice advocate, and researcher who has dedicated his career to promoting environmental and social justice in the Asia-Pacific region. Brex has more than nine years of experience working on climate change, pollution, air quality, and sustainable development.

Please note that the event will be held in English.
